Hi All,

See below for initial draft on bimonthly status report to NWEA. Please review and provide comments by November 13. Then I'll forward to our management and legal teams for review.

Per our earlier commitment to you, below is an update of our review of comments on our December 20, 2013, proposed action on Oregon's Coastal Nonpoint Program, as well as the development of responses to those comments. Since our report on September 30, NOAA and EPA have:

- Held regular meetings of various teams to continue inter-agency discussions on Oregon's program in consideration of the public comments received and the State's response. Issues discussed included: new development, OSDS, forestry-landslides, forestry-pesticides, forestry-riparian, forestry-roads, and agriculture:
 - Topic team (weekly or more frequently): to discuss public comments, state submission, and potential responses to comments and changes needed to proposed decision rationales.
 - Technical team (weekly): to share progress of topic teams, get feedback from full technical team, identify specific legal questions or decision points for legal and management teams, respectively, and ensure coordination among topic teams.
 - Managerial team (biweekly during October and November): to provide programmatic guidance to technical team and weigh in on critical decision points.
 - Managerial/Technical team: (biweekly during October and November)
- Drafted responses to summary comments and determination documents; updated decision rationales.
- Prepared for and scheduled briefings for upper management in both agencies.

We believe we are on schedule to meet our January 30, 2015, decision deadline. If you have any questions, feel free to contact me via email or at [206-553-1906](tel:206-553-1906) or Joelle Gore at joelle.gore@noaa.gov or [301-563-1177](tel:301-563-1177).
